

**Brett T. McClintock, Paul B. Conn, Robert S. Alonso, and Kevin R. Crooks. 2013.** Integrated modeling of bilateral photo-identification data in mark–recapture analyses. *Ecology* 94:1464–1471. <http://dx.doi.org/10.1890/12-1613.1>

---

## Appendices

**[Appendix A](#)**: Details of Bayesian analysis for bilateral photo-identification data.  
*Ecological Archives* E094-132-A1.

**[Appendix B](#)**: Simulation methods and results.  
*Ecological Archives* E094-132-A2.

**[Appendix C](#)**: Description of the bobcat data and integrated analysis.  
*Ecological Archives* E094-132-A3.

**[Appendix D](#)**: Extension for partially observed B encounters.  
*Ecological Archives* E094-132-A4.

## Supplement

**[Supplement 1](#)**: Example code for constructing A matrix and calculating basis vectors.  
*Ecological Archives* E094-132-S1.
